Android™

Infinite possibilities for better business

Engage, inform and create with ease. When you choose a Philips professional display powered by Android, you'll have access to millions of apps from the Google Play store.

You'll also experience more ways to connect your custom software for a truly unique experience.

Do more with Android

Give your clients more ways to enjoy their time in front of your screens.

Make a positive impression as a tech-forward company with tailored experiences.

Enjoy better connectivity with your existing systems without additional costs.

Open-source design allows you to create custom apps for any purpose.

Secure Google updates keep your Android apps optimised and protected.

CMND

Take command of your content

Optimise your on-screen content with the Philips exclusive CMND platform.

Philips professional displays that feature CMND put you in total control with powerful content creation, advanced system connectivity and pro-grade deployment through an easy to use interface.

Do more with CMND

Update your entire fleet of screens, selected sectors or single units with CMND.

CMND & Create provides easy-to-use tools and templates to design and publish custom content.

Available on Signage & Professional TV models

CMND & Control allows you to manage inputs and monitor display status over a local connection.

Available on Signage & Professional TV models

CMND & Check-in streamlines processes and adds a special touch with personal communications.

Available on Professional TV models

CMND & Deploy lets you install, launch and update your apps quickly and remotely.

Available on Signage models

ARC

Visualize it in your space

See how your custom Philips Professional Display Solutions set-up will look with the Augmented Reality Configurator.

The user-friendly ARC app works on any mobile device to give an accurate visualization of standalone signage screens and videowall installations.

Do more with ARC

Accurately measures wall space and simulates positioning from various angles.

Realistic representations of individual or multiple screens.

Easily switch between models and sizes to get the perfect fit for your space.

User-friendly interface that works on any connected mobile device with a camera.

Available for download from the Google Play store and App store.

B-Line

Professional productivity

Boost productivity and results.

The new Philips B-Line display is Crestron Connected certified, and compatible with Extron as well as Neets systems for seamless control. Schedule content and easily stream from any external device with Chromecast built-in and HDMI hotplug detection.

75"

70"

58"

Q-Line

Versatile signage

Ready for anything, the Q-Line is easy to set-up and available in both FHD and 4K UHD for powerful engagement. These displays require no additional hardware and can be configured for almost any function.

86"	75"	65"	55"
49"	48"	43"	32"

Features may not be available on all models

Corporate

Easily connect and share content for ultra-efficient meetings and presentations. Built-in Android* gives you access to more devices and apps, whilst CMND allows for updateable internal communications in an instant.

Public venues

Inform and engage visitors in public spaces. With a range of size and resolution options, the Q-Line is perfect for mixing and matching based on usage requirements whilst maintaining design consistency throughout the space.

Retail

Optimise any retail space for a better shopping experience. Easily create and control promotional content across single or multiple displays with CMND, and keep running costs down with SmartPower.

Food and beverage

Clearly display menus, update item availability, pricing, and promotions with ease using CMND. Integrated SmartPlayer and an internal MemoryCache allow for local content to be scheduled and pushed as needed.

Entertainment

Keep patrons engaged with vibrant content in up to 4K Ultra HD and impressive sizes that reach up to 86-inches. CMND allows for quick content updates across single or multiple screens and internal MemoryCache allows for local source content.

Education

Bring lessons to life with up to 4K Ultra HD resolution, and engage students with better connectivity, and open source apps through built-in Android*. CMND allows for custom content to be created and displayed with ease.

D-Line

Bigger impact

Performance meets versatility in the D-Line. Ranging up to 98-inches in size, this 24/7 D-Line is the perfect choice for content that needs to make a powerful impact in both landscape and portrait orientation. Built-in Android* provides an endless amount of possibilities.

98"	86"	75"	65"
55"	49"	43"	32"

Features may not be available on all models

Entertainment

Wow patrons with a screen size up to 98-inches. CMND allows for quick content updates across single or multiple displays, whilst internal MemoryCache and FailOver ensure that content is always running.

Public venues

Inform and engage visitors in public spaces. The D-Line features an integrated system to communicate with devices over the same network connectivity. FailOver ensures that backup content is played if the primary source experiences an outage.

Retail

Optimise any retail space for a better shopping experience. Easily create and control promotional content across single or multiple displays with CMND, and ensure content is always playing in case of primary source outages with FailOver.

Corporate

Easily connect and share content for ultra-efficient meetings and presentations. Built-in Android and SmartBrowser provide access to more apps, media content and devices, whilst CMND allows for updateable internal communications in an instant.

Food and beverage

Easily display menus, update item availability, pricing, and promotions with CMND. Integrated SmartPlayer and internal MemoryCache allow for local content scheduling, whilst FailOver ensures backup content is always available.

Transportation

Instantly update arrivals, departures and important announcements with ease using CMND. Built-in Android allows for live information and custom software integration from apps, whilst FailOver displays backup transport information in case of a primary source outage. All this with 24/7 operation.

MediaSuite

Smarter connectivity

Designed for tomorrow's content, MediaSuite features advanced connectivity, versatile configuration settings and smarter features such as Google Assistant. Integrated Netflix and Chromecast built-in make streaming fast and easy, whilst Android and Google Play Store unleash infinite possibilities.

65"	55"	50"	43"
32"			

Features may not be available on all models

Hospitality

Make your guests feel at home with Chromecast built-in for instant streaming from their personal devices, IPTV for extra channels, access to the Google Play store and now with integrated Netflix and direct access from the remote control.

Available in Full HD and 4K Ultra HD.

Corporate

Improve business productivity with seamless connectivity from both Android, Windows and Apple devices. Google Assistant makes it faster to get the info you need during presentations, whilst Smart Info and Scheduler ensures your corporate branding and comms are displayed when screens are not in use.

Entertainment

Engage patrons, promote new offers, and achieve your business targets with effortless custom content developed in-house using CMND. Paired with advanced connectivity, the possibilities are endless.

HeartLine

Advanced connectivity

Comfort patients during their time of need with the new Philips Bedside TV. Designed for healthcare environments, this medical-grade 19-inch display delivers advanced connectivity, a customisable interface, and AntiMicrobial housing for superior patient protection.

19"

Healthcare

An AntiMicrobial case minimizes the spread of germs and allows for easy cleaning, whilst nurse-call system compatibility provides convenient access to help in medical emergencies.

CMND enables instant patient information updates, and Chromecast built-in helps keep a comfortable setting by allowing patients to cast content from their mobile devices.

Galvanic isolation ensures a fail-safe separation of the headphone connector from the electrical environment near the patient's bed.

Give them the freedom to read, day or night. A **Reading light** is conveniently placed under the bottom bezel of this Philips Professional Healthcare TV. The light is operated by a button on the front touch-control panel: the button illuminates when a finger or hand is near it.
